

Rudresh Sisode

MEAN Stack Developer.

The crossover between design and programming has always been of interest to me. I have a wide range of skills that include back-end development using open source technologies (Nodejs, Java). I'm fond of learning and teaching programming, right now pursuing Data Scientist Certification from Edureka. Actively self learning Programmer. I have live training experience in my MEAN stack certification.

2017-05 -

Programmer Teacher

2019-10

Deesha Computer (MKCL Center)

Having more than 2 year of experience in Programming teaching (done part time, while pursuing Bachelor Degree)

2018-10 -

Developer

present

Self Taught Developer{

I have been developing software and web app since far interlude. I'm enough strong in MEAN Stack & Java-SE Technology.

KEY ACHIEVEMENT - Developed software for Coaching Classes and sold. Problem - Difficult to manage more than 1000 student Fees Record in notebook.

Action - Develop software to manage fees record and send SMS to Student Parents. (Used TextLocal API)

Result - Save time and manage all record.

Helping across 50+ student to enhance and develop their final year project.
